

LIFETIME LIMITED WARRANTY

AGAINST MANUFACTURER DEFECTS

At U-Drain, we build quality drainage systems. We stand behind our products and are pleased to offer a lifetime warranty against manufacturer defects across the entire line of U-Drain products. If you receive a U-Drain product that has a manufacturer defect, we will replace it for you. A proper drainage system is an investment, and you can purchase U-Drain with confidence knowing you are getting a product that is built well and built to last.

For more information regarding our manufacturer defect warranty or to process a warranty claim, please contact our support line at **1-204-746-8200** and ask to speak to our warranty department.

STRUCTURAL INTEGRITY

U-drain is pre-engineered in such a way that the weight load on top of the drain is channelled directly into the surrounding concrete. This design essentially makes U-drain™ as strong as the concrete that is poured around it. U-drain is CSA TESTED and CERTIFIED IN BOTH CANADA AND THE UNITED STATES. Our commercial and residential models in BOTH galvanized and stainless steel are CSA certified as Extra Heavy Duty (CSA B79-08) and Special Duty (ASME A112.6.3-2016). Special Duty is the highest ASME load class and requires the drain to have a safe live load of over 10,000lbs. This rating is safe for extremely heavy traffic including airport traffic.

GALVANIZED LIFESPAN

U-Drain is hot-dipped galvanized to an average 3.9 MIL coating. Our hot-dip galvanizing process results in a long lifespan for our drains. The chart below shows the lifespan of the galvanized coating based on different regional climates. Even in industrial settings, U-Drain is manufactured to provide decades of use.
